WELCOME LETTER

April 18, 2018

Dear Business, School, Mainstream Programs and Deaf Community,

It is my pleasure to see that the school has expanded CSD's students showcase by hosting the 1st annual STEAM day including not only our 29th annual Career/Technical Education Competition/Expo but also other important categories in both mathematics and science. We all recognize the critical need for the education of today's students to be competitive in the global workforce. For this reason, I wanted to thank our STEAM committee for making it possible for all of you. In addition, we decided to expand our visitor base by including mainstream students. It is a great opportunity for both our students and the mainstream students to exchange their ideas and skills.

Meanwhile, the competition and expo will allow our CTE students from both middle and high school to display their projects. The students have worked very hard this year and are proud of their accomplishments. I hope you will enjoy viewing the students' projects in Art, Bicycle Repair, Biotechnology, Career Awareness, Career Exploration Class, Construction Technology, Culinary Arts, Digital Media, Eagles Café, Engineering, Graphics Technology, Visual Art, Visual Journalism, and Wood Technology. In addition, we are pleased to have the new Elementary STEM station in our building, too.

On behalf of the students and teachers, I would like to express my appreciation to the Technical Advisory committee members who have given their time throughout the year to advise the teachers and offer suggestions for program improvements. The ultimate goal of our program is to help each student develop the necessary work habits and STEAM skills to succeed in future employment or an advanced training program. Your contribution definitely helps us reach our goal!

Sincerely,

Charles Farr, CTE Principal

SPECIAL THANKS!

I want to take a moment to thank in advance our STEAM Career Day/ CTE EXPO Committee's tireless efforts to make it work! The Committee members are: Brenda Call, Jason Kulchinsky, Gabe Leung, and Kathleen Mockus. Thanks to CTE/HS teachers for creating a space to allow a demonstration in each classroom during CTE/HS tour for all groups. Thanks to MS/HS teachers for accompanying each group through the day. It will be a fun day. Thanks to our STEAM representatives for coming to make a difference in our students' lives career-wise. Thanks to our Administrators, Cabinet and IMT's for their blessing and trust in us to bring this new idea into fruition. BIG thanks to **RIT's DeafTEC/STEM** for their sponsorship toward our event by giving us very nice string bags for our students. Lastly but equally important, thanks to **Sorenson** for sponsoring boxes and boxes of pizza for lunch for all of our students and teachers who participate in this event so they can last for the remainder of the day!

Special thanks to the STEAM representatives who come to CSD to be with our students. All of you are making a huge difference for our students.
